

AMRUTHAKRISHNA – EXPERTISE BROOKS EXCELLENCE

Under the aegis of the Amruthakrishna Group of Companies and the leadership of **Dr K.T.N. Murthy**, M.B.A., Ph D (USA), C.C.D (UK), C.M.C., MIMA., FMSPI., FUWAI., Executive Chairman, **Amruthakrishna Power Generation Limited** an ISO 9001:2000 Certified Company is setting up Power Projects in the Southern States using the latest Gasification techniques. the Company has proposed 36 MW Biomass based Power Projects in Karnataka State at the first Phase and 30 MW using Municipal Solid Wastes in Andhra Pradesh in the second Phase. The value of the above

projects estimated at US \$ 66 Millions.

The real modal idea behind the projects is that agricultural waste is readily available in India and it is eco-friendly. This can be made productive by using to generate Power, Gasification as a technology is an extremely effective manner of steam recovery from the Boiler to Turbine. The Company signed Power Purchase Agreements with State Electricity Supply Companies for 12 years initially and entire generated Power will be supplied to them. It is in the process of getting UNFCCC clearance for selling Carbon Emission Reductions globally and had tie
